JERSEY
ELECTRICITY

GROUP ACCOUNTS & ANNUAL REPORT
(to September 1998)

Excerpt of Managing Director's Report:

"Substantial benefit has been gained from work with the Institute for Business Technology, to help managers and supervisors redefine all work priorities within the Company into mini-projects designed to deliver the Corporate strategy through individual Business Plans. Personal Efficiency Programmes are enabling new ways of working by individuals and teams and will be the vehicle for future business efficiency initiatives."

M.J. Liston
Managing Director
